But it should be borne in mind that long pruning is indispensable for it, as it gives very poor crops when pruned short. Continuous measurements of mineralised nitrogen in the soil and the nitrogen content of the leaves demonstrated a better N-supply. Photos: Julia Gouot Sciences Agro, Bordeaux, France studied two wine regions in France: Irouleguy, vineyard at the foot of the Pyrenees mountain range, on the border between France and Spain, and Saint-Emilion, 20km east of Bordeaux, the latter larger in area but lower in altitude. NZWrepresentssomeareWhenaCustomsandRevenuesOfficeronthebrinkofexp We need to consider their wishes. Based on local research and international cooperation, and the support of landowners in the area, the NZW program appears effective in overcoming the problem, which is a notable achievement. Ihaveneverunderstoodwhy.Wherever they come from, Cabernet Sauvignon wines always seem to demonstrate a handful of common character traits: deep colour, good tannin structure, moderate acidity and aromas of blackcurrant, tomato leaf, dark spices and cedar wood. Were it not better such matters were left to the legitimate trade?
