The ultimate guide for travellers with cancer. Cancer cells were indeed present in the implant, while the other organs potential destinations for metastatic cells still appeared clean.

The trained, expert staff of Destination Medicine Global Health Care can assist with
Cancer Diagnosis. If they are happy for you to fly to and from your destination, ask them for a letter you can take with you on your flights, detailing Destination Cancer Free condition and any medication you need to take on board with you. If the implant can catch mobile immune cells, then why not mobile metastatic cancer cells?
Prevention is much better than cure, so wear mosquito repellent at all times
